Re: Stein v. Village Board of Trustees of the Village of Cayuga Heights
Index No.: 2013-0515

Dear Mr. DeSane:

The forms are available to Ms. Stein for pickup today before 4:30pm or at 9:00am tomorrow. There were four people originally involved in the redacting. Though the original count given to Ms. Stein was 307, the actual count was 362 consent forms.

There were 15 forms sent by the same person on different dates. These duplicates are now identified as duplicates.

The signature differences are because some forms were signed and others stamped. Some forms may have former Chief Boyce's signature. One form had the date redacted by mistake. The redaction in the lower left of a form covers instructions to a bookkeeper by an owner. Fax numbers have been redacted at the top of some pages.

Very truly yours,

John Alden Stevens
